

Slide 1: Meet the Founders: Kristof and Team

- **Title:** Meet Kristof and the Team Behind Threefold
 - **Key Points:**
 - Introduction to Kristof and key team members
 - Brief bios highlighting expertise and achievements
 - Previous successes and multi-million-pound exits
 - Notable companies and exits
 - Contributions to the tech industry
 - Vision for Threefold and decentralized internet
 - Their inspiration and mission
 - **Visuals:**
 - Photos of Kristof and team members
 - Timeline of past successful ventures
 - Quote or mission statement from Kristof
-

Slide 2: The Scale of Threefold Grid Today

- **Title:** The Scale of Threefold Grid: The Largest in the World
 - **Key Points:**
 - Overview of the Threefold Grid
 - What is the Threefold Grid?
 - Global network of storage and compute nodes
 - Current scale and growth
 - Number of nodes and geographic distribution
 - Comparison with other networks
 - Milestones and achievements
 - Key metrics and accomplishments
 - **Visuals:**
 - World map showing node distribution
 - Infographic of growth statistics
 - Comparative chart of network sizes
-

Slide 3: Launching the NEW INCA Token

- **Title:** Launching the NEW INCA Token to Empower a Billion People
- **Key Points:**
 - Introduction to the NEW INCA Token
 - Purpose and vision behind the token
 - Plan to proliferate nodes
 - Strategy for expanding the network with the token
 - \$5 million investment for token launch
 - Detailed plan on how the funds will be used

- Creating initial buying pressure and liquidity
 - Impact on global access
 - Enabling decentralized internet for a billion people
 - Promoting accessibility and zero-cost options
 - **Visuals:**
 - Flowchart of token mechanism
 - Infographic showing \$5 million investment plan
 - Visual representation of global access impact
-

Slide 4: Use Cases and Benefits of NEW INCA and Zero-OS

- **Title:** Use Cases and Benefits of NEW INCA and Zero-OS
 - **Key Points:**
 - Real-world applications of the NEW INCA Token
 - Use in cloud storage, edge computing, and more
 - Benefits of Zero-OS and decentralized internet
 - Enhanced security, cost-effectiveness, and accessibility
 - Examples and potential case studies
 - Real or hypothetical scenarios showcasing benefits
 - **Visuals:**
 - Use case diagrams
 - Icons representing key benefits (security, cost, etc.)
 - Case study snapshots or examples
-

Slide 5: Future Vision and Call to Action

- **Title:** Future Vision and How to Get Involved
- **Key Points:**
 - Future plans for Threefold and NEW INCA
 - Expansion goals and upcoming developments
 - How to join and contribute
 - Ways to become part of the network or use the token
 - Call to action
 - Links to more information, sign-up opportunities, and contact details
- **Visuals:**
 - Roadmap for future developments
 - Flowchart for participation steps
 - QR code or link for further engagement
